VRcadium website and Internet cookies

Our website uses cookies for statistical purposes and serves to adapt the website to your individual needs in accordance with the Cookie Files Policy. Using the VRcadium website without changing the settings for cookies means that they will be placed on your device, i.e. a computer, tablet, mobile phone or other device on which you visit our website. You can change your cookie settings at any time by modifying the settings of your web browser.

The Website may collect and analyze non-personal information about the browser name, computer type and technical user information, operating system and other similar information. VRcadium can collect cookies containing the above information. The information is stored only to facilitate the use of the Website in order to quickly authorize users and improve the mechanism of comments on articles posted on the blog. According to art. 173 par. 1 point 2 in conjunction from art. 173 par. 2 of the Telecommunications Law, if you do not want cookies to be saved in the memory of your computer, you should modify the settings of your internet browser in an appropriate manner. The configuration that allows the use of cookies means that you agree to the above.

Why are Cookies necessary?

The VRcadium website uses cookies that allow you to personalize the displayed pages of the Website, support login and other operations performed on the Website, and support advertising and monitor the activity of Website Users.

Thanks to this technology, we are also able to constantly work on improving the quality of our Website. After disabling cookies in your browser, we cannot guarantee that the website will work flawlessly.

No cookie file saved by the Website collects personal data of Website Users.

What are cookies?

Cookies are IT data, in particular text files, which usually contain the name of the website from which they originate, their storage time on the end device and a unique number. They are stored on the Website User's end device and allow reading information contained in them on the Website.

Types of Cookies that are used in the PMI PC service

None of the cookies used by VRcadium, contain personal information and can be used to identify a specific User.

The time the cookie file remains in the memory of the end device (e.g. computer, telephone, tablet) depends on its type:

session files (sessioncookies) - temporary files that exist only when you have access to our Website (or more strictly, until the browser is closed),

permanent files (persistentcookies) - persistent files that remain in the device after visiting the Website for a specified period of time.

The Website uses the following types of cookies:

1. **"necessary"** cookies, enabling the use of services available on the Website, e.g. authentication cookies used for services that require authentication on the Website;

2. cookie files used to ensure **security**, e.g. used to detect fraud in the field of authentication on the Website;

3. **"performance"** cookies, enabling the collection of information on the use of Website pages;

4. **"functional"** cookies that enable "remembering" the settings selected by the User and personalization of the User's interface, e.g. in terms of the language or region of the User's origin, size of the font, appearance of the website, etc .;

5. **"advertising"** cookies, enabling users to provide advertising content more tailored to their interests.
